

Mt. San Antonio College  
DSP&S Faculty Meeting  
Curriculum & Student Learning Outcomes (SLO)  
January 13, 2014

**Present:** Barbara Quinn, Tim Engle, Julie Bradley, Vicki Greco, Eloise Reyes, Christine Tunstall, Jill Wilkerson, and Christopher Walker

**Absent:**

**Agenda**

**Review**

Faculty briefly reviewed Title 5 statements regarding DSPTS services and special instruction and the Chancellor's Office legal opinion regarding DSPTS special instruction. Christine reviewed some key points from a presentation by Jason Chevallier on Student Learning Outcomes. According to Academic Senate, our syllabi should now either state our SLO or provide a link to <http://slo.mtsac.edu>

**Schedule of Curriculum 4-year Reviews and SLOs**

Christine created a chart of our DSPTS courses, when they were last approved, when they will be due again, a suggested time to begin department review, and a suggested time to carry out an SLO. There was some confusion about the last approval date. According to EDC, we should use the "Effective Date" listed on the public WebCMS (<http://webcms.mtsac.edu>).

- Jill will inactivate DSPTS 20
- Julie will inactivate the old DSPTS 55A and 55B
- Vicki will inactivate DSPTS 15
- DSPTS 13 will be resubmitted to EDC to request 2 week offerings

There was discussion regarding DSPTS 10. Do we reorganize it to stress note-taking, organization/time management, and possibly test-taking, or should that be a different class, placed within our 30-range? Vicki will take lead, and we decide during Spring whether to re-write or inactivate with a goal of a new class.

**LERND Classes**

Faculty approved the revisions of LERND2 and LERND3 last Fall. Christine entered them into the Non-Credit WebCMS, but received automatic e-mails about difficulties. Christine will follow-up with Kathi Coleman. Chris Walker will work on LERND1.

**Individual Course Curriculum and SLO Summaries**

Christine shared single page summaries of each course's Measurable Objectives, Methods of Evaluation, Lecture/Lab Outline, and SLO information. Faculty requested each be identified with "Point Person" for who will take responsibility for maintaining review.

**DSPTS 33 SLO Review**

Christine presented the results of DSPPS 33 SLO. Faculty discussed the results, use of the results, and future directions this SLO might take. Christine will input this information into TracDat.

**Future Meeting Topics**

- Follow-up from this meeting
- 4-Year Reviews of DSPPS 10, 12, 33, and 34
- Review of LERND1
- Summary of Data and Use of Results for DSPPS 12 and DSPPS 34
- Other course SLO considerations

**Next Meeting: February 10, 2014 2:00 pm in Building 20, Room 9**
